

# Terraform and K8S SDK

## how to make them work together?

Patryk Orwat

# TF in 2025?

- K8S is becoming mainstream and desired default option
- HSBC moving out to Terraform to Operator framework -  
<https://mesoform.com/resources/blog/case-studies/the-building-of-colosus-taking-a-global-financial-giant-s-internal-developer-platform-to-the-next-level>

# Already have TF repo?

- How to transform TF to K8S?
- Automate!

Let's write automation tool
